DETAILED ACTION

1. This application contains claims directed to the following patentably distinct species of the claimed invention: the embodiments of figure 1 vs figure 7 vs figure 8 vs figure 9 vs figure 10 vs figure 11 vs figure 14 vs figure 18 vs figure 22 vs figure 24 vs figure 25 vs figure 26..

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 3612

2. Additionally, depending on the species elected from above (e.g. if figure 1 is elected), election between the subspecies of anchor as defined in figure 5 vs figure 6 vs figure 27 vs figure 30 vs figure 32 using the above detailed procedure is required. Applicant is reminded that for the response to be considered complete, a comprehensive listing of the claims readable on the elected species as discussed above is required.
3. Due to the complexity of the above election, the requirement is being submitted to applicant in written form to allow ample time to address the issues raised. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gordon whose telephone number is (703) 308-2556.
